

BOOST'R 2T

1L | 2L | 30L | 60L | 220L

2 stroke motor oil

Semi-synthetic

BOOST'R 2T is a partly synthetic engine oil for **aircooled two-stroke engines of motorcycles, mopeds and lawnmowers**, with separate lubrication or self-mixing system, operating in severe conditions. It is not recommended for outboard engines.

API TC | JASO FD | ISO - L - EGD

Synthetic bases specially studied

Exhaust fumes reduced.

Excellent properties

Problems of tightening of the cylinder - piston and malfunction in the sparks plug avoided.

Good lubricating power

Full safety under extreme use conditions.

«New generation» additives

Can be used with lead-free petrol.

2 liters can with measuring cap

Technical data

Colour : green

Viscosity at 40°C : 71

Viscosity at 100°C (cSt) : 10.2

Viscosity index : 126

Flashpoint (°C) : 120

Density at 20°C : 0.867

The given data are typical data.
