

SUPER 2 TEMPS

2L | 30L | 60L

2 stroke motor oil

Mineral

SUPER 2 TEMPS is a premixed mineral lubricant developed for modern air cooled two-stroke engines that do not require the BIA standard. It is particularly suitable for the lubrication of quick engines such as: small chain saws, motorbikes and motorcycles, mechanized farming equipment, lawn mowers.

It is not recommended for outboard engines.

It is developed for two-stroke motorbikes with separate lubrication or self-mixing systems.

PERFORMANCE

API TC (TSC 3) | JASO FB | ISO L-EGB

High performance additives

Formation of calamine prevented.
Reduction of varnishing and deposits.
Spark plugs cleaned.

**The instruction of the engine manufacturer
should be observed for blend with petrol**

2 liters can with measuring cap

Technical data

Colour : green
Viscosity at 40°C (cSt) : 68,2
Viscosity at 100°C (cSt) : 9.3
Viscosity Index : 108
Flash Point (°C) : 120
Density at 20°C : 0.880
Pre-diluted for optimum mixing with fuel.

The given data are typical data
