

SAE 10W

30L | 60L

Movement oil

Mineral

Mineral oil issued from "new" paraffinic bases to which have been added additives avoiding its freezing at low temperature.

PERFORMANCE

SAE 10W | MIL.L. 2104 A | DEF. 2101 D

Lubrication of bearings and hydraulic circuits

Suitable for the first fill of small 4 stroke engines or small piston compressors

Protection oil for the storage of engines

Technical data

Viscosity at 40°C (cSt): 41
Viscosity at 100°C (cSt) : 6.3
Viscosity index: 101
Flash point (°C): 210
Density at 20°C: 0.872

The given data is typical data.
