

## XT4 TURBO 15W50

1L | 2L | 5L | 30L | 60L | 220L

4 stroke motor oil

**Mineral**

This high quality oil is developed for engines of all **petrol or diesel passenger cars**, turbo-charged or not. It is also designed for **motorcycle engines** operating in severe conditions.

The wide viscosity range of this lubricant guarantees **full protection of the engines** all year round for use in urban area as well as for long motorway driving.

**API SL / CF | ACEA A3 / B3**  
**Performance level : VW 505.00 / 501.01 | MB 229.1**

### Additives with low ash level

Engine better cleaned.

### Multigrade properties

Easy start up at low temperature

High safety potential at high temperature.

**Protection against varnishing and gumming at high temperature, deposits and sludge formation, oil shear due to speeds of rotation, wear of the triggers and the nose of cams**

**Lubrication of clutches or the gearboxes of motorcycles possible**

### Technical data

Viscosity at 40°C (cSt) : 135

Viscosity at 100°C (cSt) : 18

Viscosity index : 145

Density at 20°C : 0.882

Viscosity at -20°C (cP) : 6800

The given data are typical data.
