

TRANSFO

30L | 1000L

Miscellaneous product

Naphtenic mineral

Electrical insulating oil designed for **transformers, circuit breakers** and **similar high-voltage devices**.

IEC 60296 (03)
Classe U (Uninhibited transformer oil)

Low viscosity

Good flowing of the oil down to - 42°C
Transformer efficiently cooled
Protection against electrical breakdown.

High resistance to oxidation

Reliable performance under a large range of temperature.

Technical data

Density at 20°C : 0.885
Viscosity at 40°C (cSt) : 9
Viscosity at -30°C (cSt) : 1100
Acid number : 0.01 mg KOH/gl
Breakdown voltage : 43 KV
Pour point : -57°C
Flash point : 146°C

The given data are typical data.
