

## BLANCHE H.3 TRANSFO

5L | 30L

Movement Oil

Mineral

**Naphthene-base oil** developed for the lubrication of **small precision devices, such as sewing machine.**

It is particularly suitable for **equipment in the textile and shoe industries.**

### PERFORMANCE

**ISO 3498 : VG 10 | IEC 60296 (04) | BS 148/98 I and II**

**Smooth rotation of the moving parts of the sewing machines ensured**

**Perfect lubrication of the spindle bearings, working at high speed**

**Noise reduced**

### Technical data

Viscosity at 40°C (cSt) : 10  
Viscosity at 20°C (cSt) : 29  
Viscosity at -30°C (cSt) : 1000  
Density at 20°C : 0.870  
Acidity (mg KOH/g) : < 0,01  
Interfacial tension (mN/m): 45

Breakdown voltage (kV):  
- Before treatment: 40-60  
- After treatment: >70

Pour point (°C) : -48  
Flash point (pensky martens)(°C): 152

The given data are typical data.
