

CHAÎNE

220L

Movement oil

Mineral

Oil developed for the **greasing of the guides of chain saws.**

It will be especially appropriate for the small chain saws whose blade does not exceed 25 cm.

ISO VG 100

Adhesive properties

Effective lubrication whatever the number of revolutions of the chain
Wear reduction of the guide and the heels of the chain
Quality of the cut improved
Chain life extended.

Technical data

Viscosity at 40°C (cSt) : 100
Viscosity at 100°C (cSt) : 12
Viscosity index : 100
Density at 20°C : 0.879

The given data are typical data.
