

ACCOFLUID T46

5L | 30L | 60L | 220L

Hydraulic oil

Mineral

Multigrade mineral oil containing antioxidant, anti-wear and anti-foam additives for all hydraulic circuits.

These high-quality hydraulic oils are used in industrial hydraulic circuits (presses, robotics) and mobile equipment (construction equipment, transport equipment, agriculture, etc.) equipped with pumps or pallet motors and with pistons.

PERFORMANCE

**AFNOR NFE 48603 : HV | DIN 51524-2 : HLP
DIN 51524-3 : HVLP | ISO 3498 : VG 46 | DENISON HF0**

Good viscosity index, good demulsibility and antifoaming quality

Good energy transmission.

Antiwear, anticorrosion, antioxidant and extreme pressure additives

Protection of the circuit elements.

Excellent shear strength

Stability in service.

Compatible with silver-plated or bronze elements

Technical data

Viscosity at 40°C (cSt) : 46
Viscosity at 100°C (cSt) : 8.4
Viscosity Index : 159
Pour Point (°C) : -43
Flash point (°C) : 210
Density : 0.876

The given data are typical data..
