

ACCOGRAISSE BLANCHE ALIMENTAIRE

Grease

Tasteless, odourless and colourless grease formulated with components authorised by the French Health ministry for any incidental **contact with food products of any kind**.

It can be used for lubricating : smooth bearings, cams, roll bearings, chain axles and links, sliding channel, fruit and grapes picker machines...

NLGI 2

Long lasting adhesion

No interaction with food and drinks

Water resistant, water wash out resistant

Very good antisoldering power

Technical data

Nature du savon : inorganic

Colour : colourless-translucent

Appearance : smooth

Penetration [NF T 60-132] (1/10 mm) : 265/295

Corrosion Cu 3 h/100°C [ASTM D 4048] : 1 b

Limit temperature of use (°C) : -20 to + 200

Oxidation after 100h [ASTM D 942] (psi) : 2

Oxidation after 300h [ASTM D 942] (psi) : 3.5

Oil bleeding 30 h/100°C [AIR 1650A] (% weight) : < 5

Wash out [ASTM D 1264] à 80°C (% weight) : 1.5

Wheel bearing [ASTM D 1263] à 105°C (g) : 1

Dropping point [METTLER] (°C) : none

The given data are typical data.
